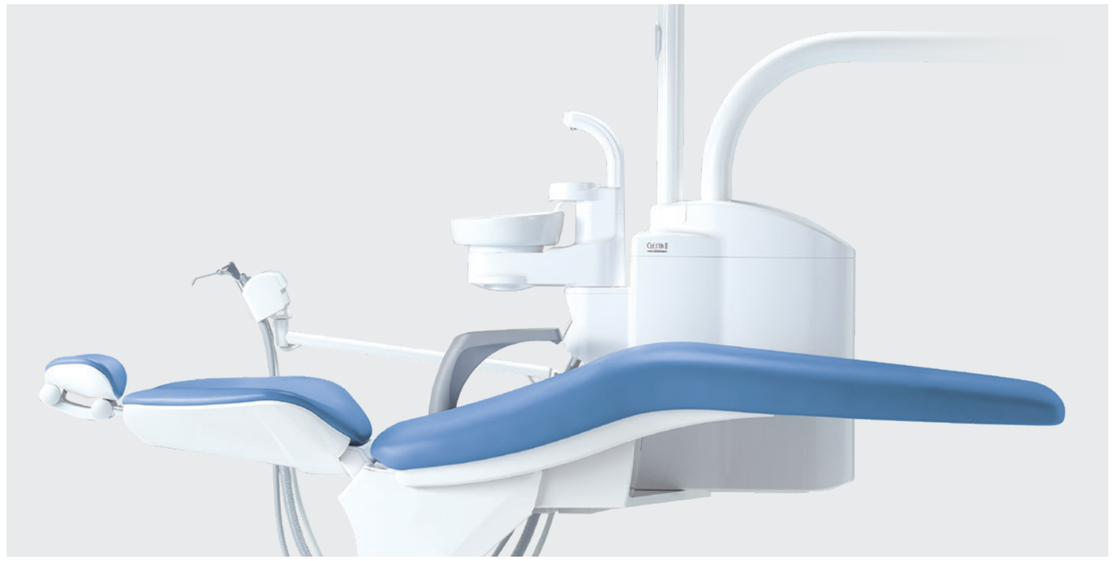
CLESTA II CHAIR

Belmont

Smooth and Relax

The **hydraulic mechanism** ensures smooth and quiet movement of the joints and provides a comfortable feeling for patients.

Features



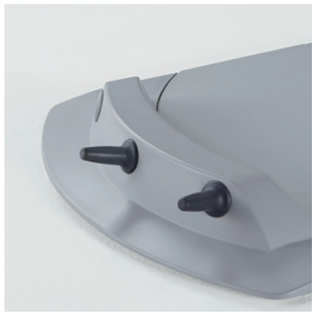
Unique low patient entry seat position along with a **200 kg patient lifting capability** is one of the most versatile chairs in the market place.

Double articulating headrest

The precise positioning of the headrest can be set in **7.5 degree increments** accommodating a wide range of patient types. The height adjustment for taller patients can be easily positioned with **very little effort** from the operator.

Rotating armrest

The armrests are designed with a length and shape that makes it easy for patients to hold and the **side-rotating mechanism** helps elderly patients mount and dismount the chair with ease.



Chair stick switch

The dental chair can be entirely manipulated in a **hands-free**, hygienic and intuitive manner using only the operator's foot (patent pending).

Color variations

The colors come in four themes: warm, cool, earth and vitamin.
Any choices from these leather colors should match the interior appointments of your clinic. The upholstery can be chosen from seam, seamless and luxury type.

Seam [Sky Blue]

Seamless [Sky Blue]

[Maroon]
